

## **Embassy Staff Visit the Signal Hill Primary School and the Signal Hill Secondary School in Tobago**

On 29 September, staff members from the Embassy of Japan visited the Signal Hill Primary and Secondary Schools in Tobago, where they made a presentation which included the screening of a video about Japan and conducted a demonstration on the art of paper folding – “Origami”.

Although it was the first time the primary and secondary school students tried their hands at “Origami”, they were able to successfully make paper cranes with their first attempts under the guidance of Embassy staff.
