

## **Ambassador Okada pays a visit to the University of the West Indies Seismic Research Center**

His Excellency Mitsuhiko Okada, Ambassador of Japan, called upon the University of the West Indies Seismic Research Center (SRC) on August 30st. SRC is carrying out observation, research and information provision on seismic, volcanic, and tsunami activities in eight countries and one territory in the East Caribbean region with funding from these participating countries.

After the presentation of the SRC's activities, given by Dr. Richard Robertson, Director of the SRC, and his staff, Ambassador Okada exchanged views on disaster risk prevention measures and shared his insight with them based on Japan's experience with tsunamis and seismic activities.
