Rolling Plan for Commonwealth of Dominica

As of April, 2014

Basic Policy of Assistance	Overcoming Vulnerability (common to all CARICOM member countries)

Priority Area 1	Environment and Disaster Risk Management

[Background and current situation]
Commonwealth of Dominica suffered damage caused by hurricanes many times; therefore, to build and maintain risk management scheme in communities is a challenge.
For solid waste management, Commonwealth of Dominica is trying to promote 3Rs (Reduce, Reuse and Recycle) and it is also required to advance renewable energy and energy efficient technology, as the country currently relies on imported fossil fuel as the main energy source.

[Strategy]
Government of Japan aims to ensure that the outcomes of the Caribbean Disaster Management Project Phase 2 are shared with all areas of Dominica for disaster prevention.
Government of Japan will focus on training and its follow up with a view to contributing to improvement in solid waste management, and promotion of renewable energy and energy efficient technology.
The Government of Japan keeps in mind knowledge sharing and linkage with neighbouring countries when it considers carrying out assistance programs.

Development Issue: Improvement in Environment and Disaster Risk Management

Japan's Assistance Program	Program Summary	Project	Scheme	Before JFY 2012	JFY 2013	JFY 2014	JFY 2015	JFY 2016	JFY 2017	Assistance Amount (100 Million Yen)	Note
Program on Support for Improvement in Environment and Disaster Risk Management	Government of Japan provides support to develop human and organization capacity and to share knowledge gained from previous projects for solid waste management (3R, disposal site management) and disaster risk management.	Solid waste management related training (solid waste management and compost)	TR								
		Waste Management (Supporting recycle promotion projects)	GGP								
		Caribbean Disaster Management Project Phase 2	TCP							2.30	Regional cooperation for 6 countries, based in Barbados
		Training for disaster risk management	TR								
		Other environmental and energy field training	TR								
		Dispatching JOCV on environment education field	JOCV								

Priority Area 2	Fisheries

	[Background and current situation] Fisheries in Commonwealth of Dominica is a solid basis for social and economic stability. The Government of Commonwealth of Dominica considers fisheries as an important industry for providing animal protein, thus contributing to food security and creating job opportunities in rural areas. Fisheries also provide the country with foreign currency through exporting.	[Strategy] While Gross National Income(GNI) of the Commonwealth of Dominica is relatively high, in view of its vulnerabilities as a small island country, Japan supports sustainable development of the fisheries, encouraging full and effective use of facilities and equipment provided by previous Grant Aid Project for Fisheries.

Development Issue Sustainable development of the fisheries	Japan's Assistance Program	Program Summary	Project	Scheme	Schedule						Assistance Amount (100 Million Yen)	Note
					Before JFY 2012	JFY 2013	JFY 2014	JFY 2015	JFY 2016	JFY 2017		
	Program on support for fisheries and fishing community development	Making full and effective use of facilities and equipment which were provided by the previous grant aid for fisheries, Japan provides assistance for poor fishing villages and supports fishing community development in Dominica	Fisheries Developing Plan	EXP								
			Caribbean Fisheries Co-Management Project between fishermen and administration	TCP							2.64	Regional cooperation for 6countries, based in Saint Vincent and the Grenadines
			Training Program in the field of coastal fishery development	TR								
			Dispatching JOCV on fisheries sector	JOCV								

Priority Area 3	Other	

	[Background and current situation] Although Social infrastructures are relatively well developed, the Government assistance for the socially vulnerable is not adequate. In particular improvement in the support system or persons with disabilities is an urgent matter.	[Strategy] The Government of Japan willprovide persons with phisical and mental disabilities with carefully considered support for increasing level of their participation in the society through JOCV training, Grass-roots Grant Aid and so on.

Development Issue Reducing disparities	Japan's Assistance Program	Program Summary	Project	Scheme	Schedule						Assistance Amount (100 Million Yen)	Note
					Before JFY 2012	JFY 2013	JFY 2014	JFY 2015	JFY 2016	JFY 2017		
	Program on Support for persons with disability	The Government of Japan will contribute to improvement in the support system for persons with disabilities people through JOCV, training and so on	Assistance for persons with disabilities	JOCV								
			Training related to persons with disabilities	TR
