**Background and current situation:**
The main industries of Saint Lucia are agriculture, which centers on banana exports, and tourism. Diversification of industries is important for Saint Lucia because of the decline in banana production caused by England's discontinuation of low import duties, recent natural disasters such as hurricanes, and fluctuating prices in international markets.

The Government of Saint Lucia is therefore promoting the development of fisheries in collaboration with the tourism sector. Additionally, the fishing industry plays an important role in distributing animal protein among the nationals, creating job opportunities, and so on.

**Strategy:**
Sustainable development of fisheries will be assisted by promoting the effective use of facilities constructed by past Japanese Grant Aid for fisheries. Sharing expertise and experience and promoting synergy among neighbouring island countries with similar problems will be taken into account while extending this assistance.

**Japan's Assistance Program**
- **Program on support for fisheries and fishing community development:**
  - While utilizing facilities and equipment which were provided by Japan's previous fisheries grant aid, Japan will provide support that will lead to community development, focusing on poor fishing villages and small-scale artisanal fishermen.

**Other Individual program**
- **Dispatching volunteers to alleviating social vulnerabilities:**
  - JOCV/SV
- **Dispatching Volunteers in the sector of education:**
  - JOCV
- **Issue-based Training in the sector of Tourism:**
  - TR
