

Annex of the Country Development Cooperation Policy (or the Country Assistance Policy)

Rolling Plan for Barbados

As of April 2017

Basic Policy of Assistance	Overcoming Vulnerability
----------------------------	--------------------------

Priority Area 1	Disaster Risk Management and Environment											
Development Issue 1-1	[Background and current situation] As Barbados is a Small Island Developing State, natural disasters such as hurricanes, tropical storms and flooding rain constitute a threat to its economic development. Because Barbados is forced to depend on imported fossil fuels as its main energy resource, it is obligated to introduce renewable energy sources and promote energy saving. Although waste recycling efforts led by private sector entities are developed in the field of waste management and this system is a model for islands nearby, it is still required that the assigned administrative capacity in the waste management division is strengthened.						[Strategy] Noting coordination and knowledge sharing with islands nearby, and based on the result of studies on the levels of assistance needed, Japan will extend necessary assistance to overcome vulnerabilities which are peculiar to Small Island Developing States in the field of disaster risk management, energy conservation, renewable energy, waste management, etc..					
		Program Summary	Project	Scheme	Schedule						Assistance Amount (100 Million Yen)	Note
					Before JFY 2016	JFY 2017	JFY 2018	JFY 2019	JFY 2020	JFY 2021		
	Program on Support for Improvement in Disaster Risk Management and the Environment	Based on the result of studies on the levels of assistance needed, Japan will extend necessary assistance to overcome vulnerabilities which are peculiar to Small Island Developing States in the fields of disaster risk management, energy conservation, renewable energy, waste management, etc.	Economic and Social Development Programme	GA							1.00	Provision of Grant to purchase equipments for Disaster Risk Management
			Training Program in Disaster Risk Management and Environment	TR
