Rolling Plan for Grenada

Basic Policy of Assistance	Overcoming Vulnerability (common to all CARICOM member countries)
----------------------------	-------------------------------------------------------------------

Priority Area 1	Disaster Risk Management and the Environment											
Development Issue 1-1 Improvement in Disaster Risk Management and the Environment	[Background and cu As Grenada is a Sm and affects the deve challenge to overco As for solid waste m Recycle), challenge management of fina Increasing the ratio given the country's i	[Strategy] The capacity to cope with natural disasters such as frequent hurricanes and floodings in the Disaster Risk Management sector will be strengthened, including the dissemination of the outcomes and lessons learned of past cooperation to other areas in the country. For coping with the Climate Change, both adaptation and mitigation measures will be encouraged through the on-going program "Japan-Caribbean Climate Change Partnership." With regard to waste management in the Environment sector, the participation of civil society and private companies in 3Rs will be promoted; the improvement in operation and management of final waste disposal sites will be made; and increasing the ratio of renewable energy in the country's energy mix and promoting energy efficiency will be supported, which will lead to overcoming vulnerabilities particular to Small Island Developing States. Sharing expertise and experience and promoting synergy with neighbouring countries with similar problems will be kept in mind while extending this assistance.

			Japan-Caribbean Climate Change Partnership	GA							15.26 (Total for 8 countries)	Collaborating with UNDP for 8 countries
			Training Program in the Solid Waste Management Sector	TR								
			Training Program in other Environment Sector	TR								

Priority Area 2	Fisheries													
	The Government of Grenada places a high priority on expanding tourism and fisheries as national main industries. Fisheries especially, which consists almost entirely of small coastal fishing (artisanal fishing), plays an important role in the national primary industry.				[Strategy] Sustainable development of fisheries will be assisted by promoting the effective use of facilities constructed by past Grant Aid for fisheries. Sharing expertise and experience and promoting synergy with neighbouring countries with similar problems will be kept in mind while extending this assistance.
