

The Government of Japan and UNOPS join efforts to strengthen public health systems and provide life-saving treatment to COVID-19 infected patients in Belize, Guyana, Suriname and Trinidad & Tobago

The Government of Japan will contribute USD 4.8 million towards a Project managed by the United Nations Office for Project Services (UNOPS) for Enhancing the Healthcare System through the Provision of Medical Equipment in Belize, Guyana, Suriname and Trinidad & Tobago. The agreement for this collaboration was signed today in a ceremony held at the UNOPS office in San José with the participation of Hon. KOMATSU Shinjiro, Ambassador of Japan in Costa Rica; Mr. Alejandro Rossi, Director of the UNOPS Multi-Country Office for Costa Rica, Panama and the English & Dutch Speaking Caribbean; and Ms. Anesa Ali-Rodríguez, in representation of the Embassy of Trinidad & Tobago in San Jose.

San Jose, March 8th, 2021. - The COVID-19 pandemic has hit every country differently, but it has equally showcased the importance of strengthening public health systems. In order to provide an efficient and effective COVID-19 response, governments focus a great part of their efforts towards ensuring solid healthcare systems to safeguard the population.

Through a grant from the Government of Japan (Ministry of Foreign Affairs), UNOPS will support the procurement of 4.8 million US dollars of essential medical equipment, medical supplies and personal protective equipment to aid in the public health response to the current crisis. By providing support to the governments, the project will contribute to enhance the healthcare systems of Belize, Guyana, Suriname and Trinidad & Tobago; **benefitting around 57,420 people.**

“Japan hopes to continue strengthening relations of friendship and goodwill with the nations of Belize, Guyana, Suriname and Trinidad and Tobago and contribute to the global response against the new coronavirus. It is in the mutual interest of our countries to continue collaborating closely to face the enormous health, economic and social challenge that COVID-19 has posed for humanity”, said **His Excellency Hon. Ambassador of Japan in Costa Rica, KOMATSU Shinjiro.**

“Within the framework of our mandate as the central procurement resource of the United Nations System, UNOPS has been working with the Government of Japan on a global scale. It is an honor to once again be able to work alongside the Health authorities of Caribbean governments, and contribute from the United Nations System to the strategy for an effective response to the pandemic and an improvement of the national health systems; all while applying the highest standards in procurement within the approach of fair public management”, stated **Mr. Alejandro Rossi, Director of the UNOPS Multi-Country Office for Costa Rica, Panama, and the English & Dutch Speaking Caribbean**

“The Government and People of the Republic of Suriname express their sincere appreciation to the Government and People of Japan for the Grant Aid to four Caribbean countries, including Suriname, to be supported by the valuable services of the United Nations Office for Project Services (UNOPS), for the Project to Improve the Health System through the Provision of Medical Equipment. As such, this project will further enable Suriname to effectively respond to the unprecedented COVID-19 pandemic, which has put added pressure on Suriname’s economic and health system. This great gesture of Japan, as a strategic cooperation partner of Suriname, will effectively support the health authorities of Suriname in the achievement of people’s welfare and well-being and gives Suriname some financial space to meet other commitments for sustainable development of the country and its people. Suriname and Japan cooperate in various areas, including fisheries, climate, disaster management, public health, capacity building, energy, community development, at the bilateral, multilateral, and bi-regional level. The formal diplomatic relations date back from 1976, almost 45 years. The Government of Suriname remains fully committed to

cooperate with UNOPS for an effective and efficient implementation of the Project and reiterates its appreciation to the Government of Japan for this Grant Aid”, said His Excellency Albert R. Ramdin, Minister of Foreign Affairs, International Business and International Cooperation of the Republic of Suriname.

The project will be managed by UNOPS in a comprehensive manner, safeguarding the procurement and delivery process while strictly adhering to the requirements of the health authorities of the Caribbean countries; hence ensuring the highest quality, transparency and performance of the economic resources provided by the Government of Japan.

Honorable Ambassador Komatsu, Mr. Rossi, Ms. Ali-Rodriguez and other key government authorities from the Caribbean expressed their encouragement towards the project and gratitude for the joint collaboration towards ensuring an effective response to the COVID-19 pandemic in the Caribbean countries.
