THE 2025 JAPAN EXCHANGE AND TEACHING (JET) PROGRAMME

STATEMENT OF PHYSICIAN

Explanation of items as indicated by patient

To the Examining Physician
(*PLEASE READ THOROUGHLY*)

This individual is an applicant to the Japan Exchange and Teaching (JET) Programme and must submit this form concerning their health as indicated on their Self-Report of Medical Condition(s). The applicant, if chosen, may be offered a year-long contract to work in Japan as a(n):

- **Assistant Language Teacher (ALT)** working for a board of education in foreign language instruction at primary, junior high, and senior high schools.
- **Coordinator for International Relations (CIR)** working in a local public office or international exchange organisation handling international projects, exchange programmes, interpretation, etc.
- **Sports Exchange Advisor (SEA)** working in a board of education to assist with sports and physical education in schools and the community.

While the JET Programme is an invaluable experience and a time of personal and professional development for participants, it is important for candidates and their physicians to understand that it can be ***emotionally*** and ***physically*** demanding. Participants must adapt to working and living in a new culture and may be placed in rural areas ***with limited access to mental and/or physical healthcare services*** in their native language(s).

If a candidate experiences medical difficulties, physical or psychological, or has only recently recovered from such difficulties, the adjustment demands of the Programme can severely exacerbate those conditions or be cause for relapse.

Information provided in this form may be used both to determine eligibility and to assign workplaces, so accurate information is essential for meeting any special requirements applicants may have.

Name of Medical Condition is to be filled in by the applicant (from Self-Report of Medical Condition(s) 1, 2a, 2b, 3, etc.). Please note that **ANY missing medical history may postpone or even PREVENT participation.**

All other medical details should be completed by the examining physician, including dates of diagnosis and recovery (if applicable). Physician must not be a relative of the applicant.

Please write legibly, use generic nomenclature for all listed medicines, and refrain from using doctor’s shorthand.
