

Ambassador Matsubara Meets with Minister Stephenson King and Tours the Cul de Sac Bridges Project in Saint Lucia

On October 24, 2024, His Excellency Yutaka Matsubara, Ambassador of Japan, met with the Honourable Stephenson King, Minister of Infrastructure, Ports, Transport, Physical Development and Urban Renewal where they had a productive exchange on mutual interests as well as conducted a site visit of the Cul de Sac Bridges Project to review the progress of the reconstruction. The bridge, which was opened in September of this year, is connected to an access road constructed by the Government of Saint Lucia.

The Project for the Reconstruction of Bridges in the Cul-De-Sac Basin hopes to mitigate the severe flooding that occurs in Saint Lucia's second largest flood plain. The grant agreement to finance the project was made between the Government of Saint Lucia and Japanese International Cooperation Agency (JICA).

The Honourable Stephenson King, Minister of Infrastructure, Ports, Transport, Physical Development and Urban Renewal speaks with H.E Yutaka Matsubara Ambassador of Japan.

The Honourable Stephenson King, Minister of Infrastructure, Ports, Transport, Physical Development and Urban Renewal walks the bridge with H.E Yutaka Matsubara, Ambassador of Japan.
