

Notice for Visitors to Japan

You must not bring any meat products, vegetables or fruits into Japan.

You must not send these goods via international mail. Please tell your family and acquaintances overseas not to send such products while you are staying in Japan.

(If you are notified that you will receive meat products, vegetables or fruits by interantional mail, please notify your nearest Animal Quarantine Service or Plant Protection Station immediately.)

- Please do not bring agricultural wear that has not been properly sanitized into Japan.
- Please avoid contact with livestock animals in your country within a week before coming to Japan and for a week after arriving in Japan.

- Bringing meat products, plants or fruit into Japan is strictly forbidden.
- If the aforementioned goods are illegally imported into Japan, perpetrators will be imprisoned up to 3 years or fined up to 3 million JPY and up to 50 million JPY for businesses.
- Illegal importation of such goods will be notified to the Police which can result in subsequent arrest.
- If you travel with illegal animal products, your entry into Japan may not be permitted.
