## **Rolling Plan for Saint Christopher and Nevis**

As of April 2018

Basic Policy of Assistance Overcoming Vulnerability (common to	CARICOM member countries)	
--	---------------------------	--

## [Diplomatic Consideration, etc.]

As per the Development Cooperation Charter, the Government of Japan will cooperate with countries which have vulnerabilities particular to Small Island Developing States and provide assistance according to the development needs and financial capacity of the targeted countries; including those countries which have attained a certain level of Gross National Income. The Government of Japan will cooperate with CARICOM member states by utilizing Japan's skills and knowledge in pursuing the First Pillar of the Ministerial Joint Statement between Japan and CARICOM: "Cooperation towards sustainable development including overcoming vulnerabilities particular to Small Island Developing States," which was adopted by the Fourth Japan-CARICOM Ministerial-Level Conference held in November 2014. Taking the First Pillar into account, the Government of Japan has decided to provide the necessary development support to Saint Christopher and Nevis, which has graduated from the OECD/DAC List of ODA Recipients, based on the country's development needs.

Priority Area 1	Environment and Disaster Risk Management											
[Development Issue 1-1] Improvement in Environment and Disaster Risk Management	[Background and ct As Saint Christophe hurricanes, is sever It is an important ch In the area of waste recyclable waste (of waste disposal site Increasing the ratio given the country's	extended to sectors such as Disaster Risk Management, Energy Efficiency and Renewable Energy and Waste Management, while taking into account the possibilty of sharing expertise

		Issue-based Training in the sector of Environment (Energy Efficiency, Waste Management, Recycling, etc.)	TR									
Priority Area 2	Fisheries											
Development Issue 2-1 Sustainable development of fisheries	[Background and current situation] The fishing industry in Saint Christopher and Nevis plays an important role in providing high quality animal protein supply to locals, creating job opportunities in rural areas, and earning foreign currency through its exports. The Government of Saint Christopher and Nevis considers the fishing industry an important industry in the National Development Plan, and believes that the industry has a lot of potential to grow with the possibility of replacing the sugar industry.  [Strategy] The sustainable development of fisheries will be supported through ongoing Technical Assistance and the provision of Grant Aid. Sharing expertise and experience and prome synergy among neighbouring island countries with similar problems will be taken into accompliance.								and promoting
