

Rolling Plan for the Commonwealth of Dominica

As of April 2018

Basic Policy of Assistance		Overcoming Vulnerability (common to all CARICOM member countries)										
Priority Area 1		Disaster Risk Management and the Environment										
Development Issue 1 Improvement in Disaster Risk Management and the Environment	[Background and current situation] As the Commonwealth of Dominica is a Small Island State, the damage from flooding and landslides, caused by hurricanes is severe and affects the development of agriculture and tourism, which are the country's main industries. It is an important challenge to overcome vulnerabilities to natural disasters, including Climate Change. In the area of waste management, the Government of the Commonwealth of Dominica is promoting 3Rs (Reduce, Reuse and Recycle). Increasing the ratio of renewable energy in the country's energy mix and promoting energy efficiency are also required given the country's reliance on imported fuel for energy production.			[Strategy] The capacity of the Disaster Risk Management sector to cope with natural disasters, such as frequent hurricanes and flooding, will be strengthened, while utilising the dissemination of the outcomes of, and lessons learned from, past Japanese cooperation to other areas in the country. To cope with Climate Change, both adaptation and mitigation measures will be encouraged through the ongoing program "Japan-Caribbean Climate Change Partnership". With regard to waste management in the Environment sector, the participation of civil society and private companies in 3Rs will be promoted; an improvement in operation and management of final waste disposal sites will be targeted, and increasing the ratio of renewable energy in the country's energy mix and promoting energy efficiency will be supported. It is expected that these measures will lead to overcoming vulnerabilities particular to Small Island Developing States. Sharing expertise and experience and promoting synergy among neighbouring island								
	Japan's Assistance Program	Program Summary	Project	Scheme	Schedule						Assistance Amount (100 Million Yen)	Note
	Program on Support for Improvement in Disaster Risk Management and the Environment	In the fields of disaster risk management, renewable energy and energy conservation, and solid waste management, Japan will provide support for overcoming vulnerabilities particular to Small Island Developing States based on the result of research on development assistance needs.	Grant Aid in the sector of Disaster Risk Management	GA	Before 2017	JFY 2018	JFY 2019	JFY 2020	JFY 2021	JFY 2022	1.00	
			Economic and Social Development Programme	GA							2.00	
			Economic and Social Development Programme	GA							2.20	
			Project for Strengthening Women's Disaster Management Capacities in Guyana and Dominica	GA							5.60 (Total for 2 countries)	Collaborating with UNDP for 2 countries
			Dispatching of Expert in the sector of Landslide Disaster Management	EXP								
			Issue-based Training and Training Program for Young Leaders in the sector of Disaster Risk Management	TR								
			Japan-Caribbean Climate Change Partnership (JCCCP)	GA							15.26 (Total for 8 countries)	Collaborating with UNDP for 8 countries
Issue-based Training in the sector of Environment (Waste Management, Water Environment Conservation, etc.)			TR									
Priority Area 2		Fisheries										
Development Issue 2 Assistance for Sustainable development of fisheries	[Background and current situation] In the Commonwealth of Dominica, fisheries is a stable social and economic base for many seaside communities, which rely on marine resources. The Government of the Commonwealth of Dominica considers fisheries to be an important industry which plays a vital role in providing animal protein to nationals, creating job opportunities, and acquiring foreign currency; therefore, the Government encourages fisheries development.			[Strategy] The sustainable development of fisheries will be assisted by promoting the effective use of facilities constructed by Japan's past Grant Aid for fisheries. Sharing expertise and experience and promoting synergy among neighbouring island countries with similar problems will be taken into account while extending this assistance.								
	Japan's Assistance Program	Program Summary	Project	Scheme	Schedule						Assistance Amount (100 Million Yen)	Note
	Program supporting fisheries and fishing community development	Assistance, which leads to community development that focuses on poor fishing villages around project sites and small scale fishermen, will be extended using facilities and equipment provided by previous Grant Aid from Japan for the fisheries sector.	Preparatory Survey for rehabilitation of fisheries facilities in Roseau and Marigot	PS	Before 2017	JFY 2018	JFY 2019	JFY 2020	JFY 2021	JFY 2022		
			The project for improvement of Fishery Equipment/Machinery	GA							1.66	
			Caribbean Fisheries Co-Management Project (CARIFICO)	TCP							2.64 (Total for 6 countries)	for 8 countries
Issue-based Training in the sector of Fisheries			TR
