

Rolling Plan for Grenada

As of April 2018

Basic Policy of Assistance	Overcoming Vulnerability (common to all CARICOM member countries)
----------------------------	---

Priority Area 1	Environment and Disaster Risk Management											
[Development Issue 1] Improvement in Environment and Disaster Risk Management	[Background and current situation] As Grenada is a Small Island State, the damage from flooding and landslides, caused by hurricanes, is severe and affects the development of agriculture and tourism, which are the country's main industries. It is important to overcome this vulnerability to natural disasters, including Climate Change. In the area of solid waste management, although the Government of Grenada is conducting 3Rs (Reduce, Reuse and Recycle), there are still challenges in increasing the level of involvement of civil society and private companies, and the operation and management of final waste disposal. Increasing the ratio of renewable energy in the country's energy mix and promoting energy efficiency are also required given the country's reliance on imported fuel for energy production.			[Strategy] The capacity of the Disaster Risk Management sector to cope with natural disasters, such as frequent hurricanes and flooding, will be strengthened, while utilising the dissemination of the outcomes of, and lessons learned from, past Japanese cooperation to other areas in the country. To cope with Climate Change, both adaptation and mitigation measures will be encouraged through the ongoing program "Japan-Caribbean Climate Change Partnership". With regard to waste management in the Environment sector, the participation of civil society and private companies in 3Rs will be promoted; an improvement in operation and management of final waste disposal sites will be targeted, and increasing the ratio of renewable energy in the country's energy mix and promoting energy efficiency will be supported. It is expected that these measures will lead to overcoming vulnerabilities particular to Small Island Developing States. Sharing expertise and experience and promoting synergy among neighbouring island countries with similar problems will be taken into account while extending development assistance.								
	Japan's Assistance Program	Program Summary	Project	Scheme	Schedule			Assistance Amount (100 Million Yen)	Note			
	Program on Support for Improvement in Environment and Disaster Risk Management	In the fields of disaster risk management, renewable energy and energy conservation, and solid waste management, Japan will provide support for overcoming vulnerabilities particular to Small Island Developing States based on the result of research on development assistance needs.	Economic and Social Development Programme	GA	Before 2017	JFY 2018	JFY 2019	JFY 2020	JFY 2021	JFY 2022	1.00	
			Grant Aid in the sector of Disaster Risk Management and Environment	GA	Before 2017	JFY 2018	JFY 2019	JFY 2020	JFY 2021	JFY 2022	1.00	
			Issue-based Training and Training Program for Young Leaders in the sector of Disaster Risk Management including ICT	TR	Before 2017	JFY 2018	JFY 2019	JFY 2020	JFY 2021	JFY 2022		
			Japan-Caribbean Climate Change Partnership (JCCCP)	GA	Before 2017	JFY 2018	JFY 2019	JFY 2020	JFY 2021	JFY 2022	15.26 (Total for 8 countries)	Collaborating with UNDP for 8 countries
Issue-based Training in the sector of Environment (Waste Management, Water Environment Conservation etc.)			TR	Before 2017	JFY 2018	JFY 2019	JFY 2020	JFY 2021	JFY 2022			
Priority Area 2	Fisheries											
Development Issue 2 Sustainable development of fisheries	[Background and current situation] The Government of Grenada places a high priority on expanding tourism and fisheries as major national industries. In particular, fisheries, which consists almost entirely of small coastal fishing (artisanal fishing), plays an important role in Grenada's national primary industry.			[Strategy] The sustainable development of fisheries will be assisted by promoting the effective use of facilities constructed by past Japanese Grant Aid for fisheries. Sharing expertise and experience and promoting synergy among neighbouring island countries with similar problems will be taken into account while extending this assistance.								
	Japan's Assistance Program	Program Summary	Project	Scheme	Schedule			Assistance Amount (100 Million Yen)	Note			
	Program on support for fisheries and fishing community development	While utilizing facilities and equipment which were provided by Japan's previous fisheries grant aid, Japan will provide support that will lead to community development, focusing on poor fishing villages and small-scale artisanal fishermen.	Caribbean Fisheries Co-Management Project (CARIFICO)	TCP	Before 2017	JFY 2018	JFY 2019	JFY 2020	JFY 2021	JFY 2022	2.64 (Total for 6 countries)	
			The project for improvement of Fishery Equipment/Machinery	GA	Before 2017	JFY 2018	JFY 2019	JFY 2020	JFY 2021	JFY 2022	4.84	
Issue-based Training in the sector of fisheries			TR	Before 2017	JFY 2018	JFY 2019	JFY 2020	JFY 2021	JFY 2022
